

Introduction

- The following are the main components of the system. The first component is the user interface. The second component is the data base. The third component is the system logic. The fourth component is the system control. The fifth component is the system monitoring. The sixth component is the system reporting. The seventh component is the system security. The eighth component is the system backup. The ninth component is the system recovery. The tenth component is the system maintenance. The eleventh component is the system upgrade. The twelfth component is the system migration. The thirteenth component is the system integration. The fourteenth component is the system testing. The fifteenth component is the system deployment. The sixteenth component is the system evaluation. The seventeenth component is the system optimization. The eighteenth component is the system documentation. The nineteenth component is the system training. The twentieth component is the system support. The twenty-first component is the system exit. The twenty-second component is the system termination. The twenty-third component is the system destruction. The twenty-fourth component is the system disposal. The twenty-fifth component is the system recycling. The twenty-sixth component is the system reuse. The twenty-seventh component is the system repurposing. The twenty-eighth component is the system repatriation. The twenty-ninth component is the system repatriation. The thirtieth component is the system repatriation.

Accessing the Event Booking system

4. Checking Student Availability

The screenshot shows the 'Event Setup' interface. At the top, there are fields for 'Event Title' (Inbound) and 'Event for Other Events'. Below this, a table lists sessions:

Session	Date	Time	Duration
Session 1	23-Nov-2009	09:00	11:00
Session 2	25-Nov-2009	09:00	11:00

Below the table is a grid for checking student availability. The grid has columns for 'Student' and 'Availability' (with checkmarks). The 'Student' column lists names like 'Man', 'Man', 'Man', 'Man', 'Man', 'Man', 'Man', 'Man', 'Man', 'Man'. The 'Availability' column shows checkmarks for each student across the sessions.

Figure 4 - Event setup availability check

5. Inviting Staff to an Event

The screenshot shows the 'Event Staff' interface. At the top, there are tabs for 'Manage Event', 'Event Bookings & Attendance', and 'Event Staff'. Below the tabs, there is a table with columns for 'Department' and 'Event Staff'. The table is currently empty, and a message 'No records found' is displayed.

On the right side, there is a summary box with the following information:

- Event Title: Spring...
- Event Type: One-to-
- Event Purpose: Academ...

The interface also includes a search bar and a 'Related Links' dropdown menu.
